DigiHealthDay™ Speaker

Patrick Glauner, Ph.D.

**Professor of Artificial Intelligence,
Deggendorf University of Technology
Founder & CEO, skyrocket.ai GmbH**

Dr. Patrick Glauner is a Full Professor of Artificial Intelligence at Deggendorf Institute of Technology since age 30. As an expert witness, he advised the European Union affairs committees of the German federal parliament and the French National Assembly. He has published three books with Springer: "Creating Innovation Spaces" (2021), "Digitalization in Healthcare" (2021), and "Innovative Technologies for Market Leadership" (2020). Furthermore, he is an Area Editor of the International Journal of Computational Intelligence Systems (IJCIS).

His works on AI were featured by New Scientist, McKinsey, Imperial College London, Udacity, the Luxembourg National Research Fund, Towards Data Science, Süddeutsche Zeitung, Westdeutscher Rundfunk, and others. He was previously Head of Data Academy at Alexander Thamm GmbH, Innovation Manager for Artificial Intelligence at Kronos Group, a Fellow at the European Organization for Nuclear Research (CERN), and a visiting researcher at the University of Quebec in Montreal (UQAM).

He graduated as valedictorian from Karlsruhe University of Applied Sciences with a BSc in Computer Science. He subsequently received an MSc in Machine Learning from Imperial College London, an MBA from Quantic School of Business and Technology, and a PhD in Computer Science from the University of Luxembourg. He is an alumnus of the German National Academic Foundation (Studienstiftung des deutschen Volkes).
